Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Curators
University of Missouri System:

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri, as of and for the year ended June 30, 2010, which collectively comprise the University of Missouri System's basic financial statements, and have issued our report thereon dated October 14, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

For purposes of this report, our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters did not include Capital Region Medical Center that operates as an affiliate of the Medical Alliance, a discretely presented component unit of the University of Missouri System. We have issued a separate report, dated October 13, 2010, on our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for this entity. The findings, if any, included in that report are not included herein.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the University of Missouri System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Missouri System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Missouri System's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Missouri System's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the University of Missouri System in a separate letter dated October 14, 2010.

This report is intended solely for the information and use of the Board of Curators, management, others within the University of Missouri System, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance With Requirements
That Could Have a Direct and Material Effect on Each Major Program and on
Internal Control Over Compliance in Accordance With OMB Circular A-133**

The Board of Curators
University of Missouri System:

Compliance

We have audited the compliance of the University of Missouri System, a component unit of the State of Missouri, with the types of compliance requirements described in the U.S. Office of Management and Budget (*OMB*) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University of Missouri System's major federal programs for the year ended June 30, 2010, except the requirements discussed in the second paragraph of this report. The University of Missouri System's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University of Missouri System management. Our responsibility is to express an opinion on the University of Missouri System's compliance based on our audit.

We did not audit the University of Missouri System's compliance with the requirements governing maintaining contact with borrowers, billing and collection procedures, and verifying and reporting all deferments, postponements, cancellations, and defaulted loans in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement. Those requirements govern functions performed by Educational Computer Systems, Inc. Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. Educational Computer Systems, Inc.'s compliance with the requirements governing the functions that it performs for the University of Missouri System for the year ended June 30, 2010 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' examination of Educational Computer Systems, Inc.'s compliance with such requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements described in the compliance supplement that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Missouri System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University of Missouri System's compliance with those requirements.

In our opinion, the University of Missouri System complied, in all material respects, with the compliance requirements referred to in the first paragraph above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as findings 2010-02, 2010-03, 2010-04, 2010-05, 2010-06, 2010-07, and 2010-08.

Internal Control Over Compliance

Management of the University of Missouri System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University of Missouri System's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Missouri System's internal control over compliance.

Requirements governing maintaining contact with borrowers, billing and collection procedures, and verifying and reporting all deferments, postponements, cancellations, and defaulted loans in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement are performed by Educational Computer Systems, Inc. Internal control over compliance related to such functions for the year ended June 30, 2010 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' testing of Educational Computer Systems, Inc.'s internal control over compliance related to such functions.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as finding 2010-08 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as findings 2010-01, 2010-02, 2010-03, 2010-04, 2010-05, 2010-06, and 2010-07 to be significant deficiencies.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri, as of and for the year ended June 30, 2010, and have issued our report thereon dated October 14, 2010. Our audit was performed for the purpose of forming opinions on the financial statement that collectively comprise the University of Missouri System's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The University of Missouri System's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University of Missouri System's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Curators, management, others within the University of Missouri System, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)

Notes to the Schedule of Expenditures of Federal Awards

Year ended June 30, 2010

1. Summary of Significant Accounting Policies and Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of the University of Missouri System (the University) under programs funded by the federal government for the year ended June 30, 2010. The Schedule has been prepared on the accrual basis of accounting.

For purposes of the Schedule, federal awards include all grants and contracts entered into directly between the University and agencies and departments of the federal government, as well as federal funds passed through to the University by other recipients. The awards are classified as a major program in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The Schedule includes only federal funds and other federal assistance received by the University and denotes the federal agency that is the source of those funds.

2. Research and Development Cluster

The University's Research and Development Cluster major federal program includes those awards that are for basic and applied research and development activities and for research training. OMB Circular A-133 defines research and development as follows: research is a systemic study directed toward fuller scientific knowledge or understanding of the subject studied; development is the systemic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

3. Indirect Costs

Expenditures listed in the Schedule consist of direct and indirect costs. Direct costs are those that can be easily identified with an individual federally sponsored project. The salary of a principal investigator of a sponsored research project and the materials consumed by the project are examples of direct costs.

The University and federal agencies use an indirect cost rate to charge indirect costs to individual federally sponsored projects. Indirect costs are the costs of services and resources that benefit both sponsored and nonsponsored projects and activities. The rate is the result of a number of complex cost allocation procedures that the University uses to allocate its indirect costs to both sponsored and nonsponsored activities.

The University recovers indirect costs under the federal financial assistance programs based on predetermined rates up to 51.5% which were negotiated between the University and the U.S. Department of Health and Human Services for the year ended June 30, 2010.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Notes to the Schedule of Expenditures of Federal Awards, Continued

Year ended June 30, 2010

4. Grants to Subrecipients

Of the federal expenditures presented in the Schedule, the University provided \$20,732,785 in expenditures to subrecipients. The funds were primarily provided to other institutions of higher education, and related to various grant programs across the following federal agencies:

<u>Federal Agency</u>	<u>Amount</u>
U.S. Department of Agriculture	\$ 1,418,137
U.S. Department of Commerce	207,985
U.S. Department of Defense	3,422,631
U.S. Department of the Interior	60,231
U.S. Department of Justice	90,420
U.S. Department of Labor	92,511
U.S. Department of State	96,378
U.S. Department of Transportation	615,198
National Aeronautics & Space Administration	412,454
National Endowment for the Humanities	9,947
National Science Foundation	3,834,648
Small Business Administration	810,752
Environmental Protection Agency	57,592
Nuclear Regulatory Commission	30,000
U.S. Department of Energy	671,721
U.S. Department of Education	1,476,397
U.S. Department of Health and Human Services	7,186,962
Corporation for National and Community Service	2,974
U.S. Department of Homeland Security	77,531
U.S. Agency for International Development	158,316
	<u>\$ 20,732,785</u>

5. Loan Programs

The University also participates in various loan programs. Such loan programs are considered a component of the student financial aid cluster, except for CFDA Nos. 93.264 and 93.408. The following schedule represents loans advanced (which are included on the face of the schedule of expenditures of federal awards), and outstanding by the University as of and for the year ended June 30, 2010:

(3) **Findings and Questioned Costs relating to Federal Awards:**

FINDING 2010-01

Federal Agency – U.S. Department of Education

Federal Program Titles – Research and Development Cluster, Student Financial Assistance Cluster, and Substance Abuse and Mental Health Services – Projects of Regional and National Significance

CFDA Nos. – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster, Student Financial Assistance Cluster, and Substance Abuse and Mental Health Services – Projects of Regional and National Significance

Grant Identification Numbers – As listed in the Schedule of Expenditures of Federal Awards

Compliance Requirement – Other (Schedule of Expenditures of Federal Awards)

Criteria – Section .310 of OMB Circular A-133 requires the University of Missouri System (the University) to prepare a Schedule of Expenditures of Federal Awards (SEFA) that includes all accrual-basis federal awards expended for the fiscal year. Federal program and award identification to be presented within the SEFA includes: the name of the federal granting agency; the name of the pass-through entity, if applicable; CFDA number and title; the award number; and the accrual basis expenditure amount. In addition, OMB Circular A-133 requires non-federal entities receiving federal awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should ensure that accurate and complete accrual-basis federal expenditures for the fiscal year are reported on the SEFA to facilitate accurate identification and reporting of major programs in conjunction with the OMB Circular A-133 Single Audit, and effective regulatory compliance oversight.

Conditions Found – The University did not have an effective system of internal control in place to ensure that accrual-basis federal award expenditures were accurately presented within the unadjusted SEFA related to the Student Financial Assistance Cluster, Research and Development Cluster, and Substance Abuse and Mental Health Services – Projects of Regional and National Significance Program. While performing test work related to the accuracy of amounts presented within the SEFA for the Student Financial Assistance Cluster, it was identified that the general ledger detail for the Federal Work-Study Program at the University of Missouri – Kansas City included expenditures in the amount of \$1,331,176 whereas the unadjusted SEFA included expenditures in the amount of \$1,270,865. Management indicated this error occurred due to a formula error in the spreadsheet utilized to reconcile Federal Work-Study Program expenditures per the general ledger to the SEFA.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Additionally, while performing procedures related to the accuracy of the SEFA, it was identified that Grant Identification Nos. 2UD1TIO13591-07, 2UD1TIO13592-07, and 2UD1TIO13592-08 were inconsistently presented between the Research and Development Cluster and the Substance Abuse and Mental Health Services – Projects of Regional and National Significance Program (outside of the Research and Development Cluster). Upon further review by the University, it was determined that these grant identification numbers were most accurately presented as part of the Research and Development Cluster. Therefore, \$984,448 of expenditures were reclassified from the Substance Abuse and Mental Health Services – Projects of Regional and National Significance Program to the Research and Development Cluster.

Questioned Costs – There are no questioned costs.

Context – The condition found related to the presentation of Federal Work-Study Program expenditures in the SEFA resulted in the exclusion of \$60,311 of Federal Work-Study Program expenditures at the University of Missouri – Kansas City. Total adjusted Federal Work-Study Program expenditures at the University of Missouri – Kansas City were \$1,331,176. Upon identification of this error, management corrected the SEFA.

Additionally, the condition found related to the inconsistent presentation of Grant Identification Nos. 2UD1TIO13591-07, 2UD1TIO13592-07, and 2UD1TIO13592-08 in the SEFA resulted in the exclusion of \$984,448 of expenditures from the Research and Development Cluster, and inclusion of \$984,448 of expenditures as part of the Substance Abuse and Mental Health Services – Projects of Regional and National Significance Program (outside of the Research and Development Cluster). Upon identification of this error, management corrected the SEFA.

Cause and Effect – The University did not have an effective system of internal controls in place to ensure that Federal Work-Study Program expenditures were accurately included within the unadjusted SEFA. As a result, such amounts were not accurately presented within the unadjusted SEFA.

Additionally, the inconsistent presentation of Grant Identification Nos. 2UD1TIO13591-07, 2UD1TIO13592-07, and 2UD1TIO13592-08 within the unadjusted SEFA occurred because the University did not have an effective system of internal controls in place to ensure grant identification numbers were accurately included within the SEFA. In this instance, because grant identification numbers within the unadjusted SEFA for various amendments/subsets of these awards were inaccurately and inconsistently presented, the University's normal review process related to reviewing the accuracy of the SEFA did not identify the inconsistency in presentation.

Recommendations – To the extent items are not accurately recorded within the SEFA, it could lead to the improper determination and reporting of major programs for the OMB Circular A-133 Single Audit, or ineffective regulatory compliance oversight. As such, we recommend the University strengthen its processes and controls surrounding the preparation of the SEFA in accordance with Section .310 of OMB Circular A-133.

Views of Responsible Officials and Corrective Actions – The University agrees it must strengthen its existing processes and controls to ensure Research and Development Cluster, Student Financial Assistance Cluster, and

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Substance Abuse and Mental Health Services – Projects of Regional and National Significance program expenditures are accurately reported in the SEFA.

The Controller's Office will enhance its SEFA reviews to better identify inaccuracies and inconsistencies on the SEFA. Additionally, the Controller's Office will conduct training with the campus Sponsored Programs Offices regarding the determination of the proper cluster for new awards. These processes will be in place by August 31, 2011.

Contact Name: Ryan Rapp, Associate Controller
Contact Telephone Number: (573) 882-6435

FINDING 2010-02

Federal Agency – U.S. Department of Education

Federal Program Title – Student Financial Assistance Cluster

CFDA No. – 84.063 (Federal Pell Grant Program)

Grant Identification Numbers – As listed in the Schedule of Expenditures of Federal Awards for CFDA No. 84.063

Grant Award Period – July 1, 2009 through June 30, 2010

Compliance Requirement – Reporting

Criteria – The OMB Circular A-133 Compliance Supplement and OMB 1845-0039 require that institutions report Pell payment data within 30 calendar days after the school makes a payment, or becomes aware of the need to make an adjustment to previously reported student payment data or expected student payment data.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement as it relates to CFDA No. 84.063 – Federal Pell Grant Program within the Student Financial Assistance Cluster. While performing procedures related to the reporting of Pell payment data for 102 total disbursements, it was identified that Pell payment data for six of ten Fall disbursements selected for test work for the Missouri University of Science and Technology campus were reported outside of the 30 calendar day requirement established by the OMB Circular A-133 Compliance Supplement and OMB 1845-0039. Management indicated this was a result of a transmission error when uploading disbursement records on September 1, 2009 via the U.S. Department of Education's Common Origination and Reporting System. While Missouri University of Science and Technology management identified that a transmission error occurred and attempted to resubmit the information via the U.S. Department of Education's Common Origination and Reporting System, it was later identified that some records were not resubmitted because such were erroneously marked within Missouri University of Science and Technology's system as having been successfully submitted during the first upload attempt. Upon identification by Missouri University of Science and Technology management on September 28, 2009, such Pell payment data was subsequently remitted, outside of the 30 calendar day requirement.

Questioned Costs – There are no questioned costs.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Context – The University’s records indicate the error identified impacted the reporting of Pell Payment Data for 742 Pell disbursements made between August 17, 2009 and September 1, 2009 at the Missouri University of Science and Technology. During the Fall 2009 term, 1,373 Pell disbursements were made at the Missouri University of Science and Technology.

Cause and Effect – The University did not have an effective system of internal control in place to ensure that Pell payment data was reported within the 30 calendar day requirement, specifically following a failed transmission to the U.S. Department of Education’s Common Origination and Reporting System. As a result, Pell payment data for 742 Pell disbursements was reported outside of the required 30 calendar day requirement.

Recommendations – We recommend the University strengthen its existing processes and controls relative to the reporting compliance requirement in accordance with the OMB Circular A-133 Compliance Supplement and OMB 1845-0039.

Views of Responsible Officials and Corrective Actions – The University agrees that it should strengthen its controls relative to the reporting compliance requirement in accordance with the OMB Circular A-133 Compliance Supplement, and OMB 1845-0039.

The Pell payment late reporting was caused by a transmission error. The Missouri University of Science and Technology has instituted a reconciliation process and cross-trained team members to ensure compliance with the 30 calendar day reporting requirement. Additionally, the process is now performed twice a month allowing any error to be discovered and corrected within the required time period. These procedures were implemented in April 2010.

Contact Name: Ryan Rapp, Associate Controller
Contact Telephone Number: (573) 882-6435

FINDING 2010-03

Federal Agency – U.S. Department of Education

Federal Program Title – Student Financial Assistance Cluster

CFDA Nos. – 84.032 (Federal Family Education Loans), 84.038 (Federal Perkins Loans), and 84.268 (Federal Direct Student Loans)

Grant Identification Numbers – As listed in the Schedule of Expenditures of Federal Awards for CFDA Nos. 84.032, 84.038, and 84.268

Grant Award Period – July 1, 2009 through June 30, 2010

Compliance Requirement – Special Tests & Provisions – Disbursements To or On Behalf of Students

Criteria – 34 CFR Part 668 requires that if an institution credits a student’s account at the institution with Federal Family Education Loans, Federal Perkins Loans, or Federal Direct Student Loans, the institution must notify the student, or parent of the date and amount of the disbursement; the student or parent’s right to cancel all or a portion of that loan or loan disbursement and have the loan proceeds returned to the holder of that loan; and the procedures and the time by which the student or parent must notify the institution that he or she wishes to

UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

cancel the loan or loan disbursement. This notification is to be performed no earlier than 30 days before, and no later than 30 days after, crediting the student's account at the institution with Federal Family Education Loans, Federal Perkins Loans, or Federal Direct Student Loans.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with all of the requirements of the Special Tests & Provisions – Disbursements To or On Behalf of Students compliance requirement as it relates to CFDA Nos. 84.032, 84.038, and 84.268 within the Student Financial Assistance Cluster. While performing procedures related to the Special Tests & Provisions – Disbursements To or On Behalf of Students compliance requirement, it was identified that for 20 of 20 student's Fall Federal Family Education Loan (CFDA No. 84.032), Federal Perkins Loans (CFDA No. 84.038), and Federal Direct Student Loan (CFDA No. 84.268) disbursements selected for test work at the University of Missouri – Kansas City, the required notifications of credit to students' accounts were not performed after crediting the student's account at the institution with Federal Family Education Loan, Federal Perkins Loan, and Federal Direct Student Loan funds.

Additionally, it was identified that for 14 of 14 student's Spring Federal Family Education Loan (CFDA No. 84.032), Federal Perkins Loans (CFDA No. 84.038), and Federal Direct Student Loan (CFDA No. 84.268) disbursements selected for test work at the University of Missouri – Kansas City, the required notifications of credit to students' accounts were made outside the 30 day requirement. Specifically, notifications were made on March 5, 2010, which resulted in notifications for all Spring disbursements made prior to February 3, 2010 being performed more than 30 days after crediting the student's account at the institution, as required by 34 CFR Part 668.

Questioned Costs – There are no questioned costs.

Context – The University of Missouri – Kansas City's records indicate that the condition found at the University of Missouri – Kansas City related to providing required notifications of credit to students' accounts during the Fall term impacted 14,992 disbursements, which represents all students who received Fall disbursements. The University of Missouri – Kansas City's records indicate that the condition found at the University of Missouri – Kansas City related to providing required notifications of credit to students' accounts during the Spring term impacted 13,666 of 14,569 Spring disbursements, which represents all students who received disbursements prior to February 3, 2010.

Cause and Effect – The University did not have an effective system of internal control in place to ensure that notifications required by the University of Missouri – Kansas City were performed within 30 days after crediting the student's account at the institution with Federal Family Education Loan, Federal Perkins Loan, or Federal Direct Student Loan funds. As a result, notifications to impacted students were not performed related to Fall disbursements, and were performed more than 30 days after crediting the student's account at the institution for Spring disbursements made prior to February 3, 2010.

Recommendations – We recommend the University strengthen its existing processes and controls relative to the Special Tests & Provisions – Disbursements To or On Behalf of Students compliance requirement to ensure compliance with 34 CFR Part 668.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Views of Responsible Officials and Corrective Actions – The University agrees it must strengthen its existing processes and controls relative to the Special Tests & Provisions – Disbursements to or On Behalf of Students compliance requirement to ensure compliance with 34 CFR Part 668.

The Kansas City Student Financial Aid Office was unaware that disbursement notifications were not being sent from the Kansas City Cashier's Office. Once the Student Financial Aid Office became aware of the issue, they modeled their notification process after the Columbia campus Student Financial Aid Office's notification process and began sending notifications of disbursements to students daily on March 5, 2010.

Contact Name: Ryan Rapp, Associate Controller

Federal Agency – U.S. Department of Education

Federal Program Title – Student Financial Assistance Cluster

CFDA Nos. – As listed in the Schedule of Expenditures of Federal Awards for the Student Financial Assistance Cluster

Grant Identification Numbers – As listed in the Schedule of Expenditures of Federal Awards for the Student Financial Assistance Cluster

Grant Award Period – July 1, 2009 through June 30, 2010

Compliance Requirement – Special Tests & Provisions – Return of Title IV Funds

Criteria – 34 CFR Part 668.173 requires that returns of Title IV funds be initiated by the institution as soon as possible, but no later than 45 days after the date the institution determines that a student withdrew.

34 CFR Part 668.22 prescribes that the date utilized in calculating Title IV funds to be returned is the date the student began the official withdrawal process, or the date of the student's notification of the intent to withdraw, whichever is earlier. If a student did not begin the official withdrawal process or provide notification of the intent to withdraw, the date of the institution's determination that the student withdrew would be the date the school becomes aware that the student ceased attendance. Also, if the total amount of title IV grant or loan assistance, or both, that the student earned as calculated is greater than the total amount of title IV grant or loan assistance, or both, that was disbursed to the student or on behalf of the student, as of the date of the institution's determination that the student withdrew, the difference between these amounts must be treated as a post-withdrawal disbursement.

Additionally, 34 CFR Part 668.22 prescribes that the total number of calendar days in a payment period or period of enrollment to be used for purposes of a return of Title IV funds calculation includes all days within the period, except scheduled breaks of at least five consecutive days, which should be excluded from the total number of calendar days in a payment period or period of enrollment.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with the Special Tests & Provisions – Return of Title IV Funds compliance requirement as it relates to the Student Financial Assistance Cluster. While performing procedures related to the Special Tests & Provisions – Return of Title IV funds compliance requirement, the following conditions were identified:

- For three of 15 students’ return of Title IV fund calculations selected for test work at the Missouri University of Science and Technology, funds were returned for an incorrect amount. In one of these three students’ return of Title IV fund calculations, the error occurred because the incorrect number of days within the payment period was used in the return of Title IV fund calculation.
- For two of 15 students’ return of Title IV fund calculations selected for test work at the Missouri University of Science and Technology and two of 15 students’ return of Title IV fund calculations selected for test work at the University of Missouri – St. Louis, the calculations were performed using either the date withdrawal information was entered into the PeopleSoft system or an incorrect date which did not accurately reflect the date the student began the official withdrawal process. 34 CFR 668.22 requires that the date the student began the official withdrawal process be used. This condition also resulted in all or part of the required funds to be returned for the two of 15 students selected for test work at the Missouri University of Science and Technology being returned outside of the 45 day requirement prescribed by 34 CFR 668.173.
- For one of 15 students selected for test work at the Missouri University of Science and Technology, no post-withdrawal disbursement was performed, as required by 34 CFR 668.22.

Questioned Costs – Most likely questioned costs related to the Missouri University of Science and Technology returning an incorrect amount of Title IV funds or related to the return of Title IV funds calculations being prepared using incorrect dates are estimated to be \$23 for Federal Perkins Loans (CFDA No. 84.038), \$289 for Subsidized Family Federal Education Loans (CFDA No. 84.032), and \$731 for PLUS Family Federal Education Loans (CFDA No. 84.032). Most likely questioned costs were calculated by the Missouri University of Science and Technology based upon a recalculation performed for the entire population of Return of Title IV calculations made during the year for the Missouri University of Science and Technology.

Most likely questioned costs related to the University of Missouri – St. Louis return of Title IV calculations being prepared using incorrect dates are estimated to be \$757 for Subsidized Family Federal Education Loans (CFDA No. 84.032) and \$1,349 for Unsubsidized Family Federal Education Loans (CFDA No. 84.032). Most likely questioned costs were calculated by the University of Missouri – St. Louis based upon a recalculation performed for the entire population of Return of Title IV calculations made during the year for the University of Missouri – St. Louis.

There are no questioned costs related to students for which a post-withdrawal disbursement should be performed at the Missouri University of Science and Technology.

Context – The conditions found related to returning an incorrect amount of Title IV funds or related to the return of Title IV fund calculations being prepared using incorrect dates impacted 25 return of Title IV calculations at the Missouri University of Science and Technology and 15 return of Title IV calculations at the the University of Missouri – St. Louis. The University’s records indicate that there were 76 return of Title IV funds calculations

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

performed at the Missouri University of Science and Technology and 376 return of Title IV funds calculations the University of Missouri – St. Louis.

Cause and Effect – The University did not have an effective system of internal control in place to ensure the Missouri University of Science and Technology and the University of Missouri – St. Louis utilized the accurate inputs in the return of Title IV calculations, which resulted in incorrect amounts of aid being returned (Missouri University of Science and Technology) or incorrect dates being used (Missouri University of Science and Technology and the University of Missouri – St. Louis). As a result, the return of Title IV calculations for the Missouri University of Science and Technology and the University of Missouri – St. Louis were not performed in accordance with 34 CFR Part 668.22 and 34 CFR 668.173.

Additionally, the University did not have an effective system of internal control to ensure that students entitled to a post-withdrawal disbursement at the Missouri University of Science and Technology received such a disbursement, which resulted in a student not receiving a post-withdrawal disbursement that was required to be made in accordance with 34 CFR Part 668.22.

Recommendations – We recommend the University strengthen its existing processes and controls relative to the Special Tests & Provisions – Return of Title IV Funds compliance requirement to ensure compliance with 34 CFR Part 668.22 and 34 CFR Part 668.173.

Views of Responsible Officials and Corrective Actions – The University agrees it must strengthen its existing processes and controls relative to the Special Tests & Provisions – Return of Title IV Funds compliance requirement to ensure compliance with 34 CFR Part 668.22 and 34 CR Part 668.173.

The calculation of return of Title IV funds and the calculation of aid that could have been disbursed on the Missouri University of Science and Technology campus were not performed correctly due to an error in the calculation of the number of days and inadequate oversight to ensure the correct data was entered into the Return of Title IV Calculation software. This issue was addressed prior to the Spring 2010 semester.

The Student Financial Aid offices on the University of Missouri-St. Louis campus and the Missouri University of Science and Technology campus have communicated the date utilized in calculating the return of Title IV funds with the campus Registrar's Offices and as of March 2010, the campus Registrars' Offices have modified the business process to utilize the date the students initiate the withdrawal in the calculation of the return of Title IV funds.

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

FINDING 2010-05

Federal Agency – U.S. Department of Education

Federal Program Title – Student Financial Assistance Cluster

CFDA No. – 84.032 (Federal Family Education Loans)

Grant Identification Numbers – As listed within the Schedule of Expenditures of Federal Awards for CFDA No. 84.032

Grant Award Period – July 1, 2009 through June 30, 2010

Compliance Requirement – Special Tests & Provisions – Student Status Changes

Criteria – As established by 34 CFR Part 682.610, under the Federal Family Education Loan program, schools must initially complete and return the Student Status Confirmation Reports sent by the U.S. Department of Education within 30 days of receipt. Additionally, unless the school expects to complete its next Student Status Confirmation Reports within 60 days, the school must notify the lender or guarantee agency within 30 days, if it discovers that a student who received a loan either did not enroll or ceased to be enrolled on at least a half-time basis. Information to be reported includes, but is not limited to, changes in status resulting from loans made to full-time students who have ceased to be enrolled on a full-time basis, loans made to a student who have ceased to be enrolled on at least a half-time basis, or loans to students accepted for enrollment, yet who failed to enroll on at least a half-time basis.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with the Special Tests & Provisions – Student Status Changes compliance requirement as it relates to CFDA No. 84.032 (Federal Family Education Loans) within the Student Financial Assistance Cluster. While performing test work related to the timely reporting of student status changes, it was identified that student status changes were reported after more than 60 days for three of 17 students selected for test work at the University of Missouri – St. Louis and one of 17 students selected for test work at the Missouri University of Science and Technology. Additionally, it was identified that a student status change was not reported for one of 24 students selected for test work at the University of Missouri (Columbia campus).

Additionally, it was identified that for four of 17 students selected for test work at the University of Missouri – Kansas City and one of 17 students selected for test work at the Missouri University of Science and Technology, information was reported within Student Status Confirmation Reports utilizing a date that differed from the date of withdrawal ranging between 1 and 13 days.

Questioned Costs – There are no questioned costs.

Context – The conditions found related to the timely reporting of student status changes impacted three of 17 students selected for test work that had withdrawn from the University of Missouri – St. Louis, one of 17 students selected for test work at the Missouri University of Science and Technology, and one of 24 students selected for test work at the University of Missouri (Columbia campus) during the fiscal year ended June 30, 2010. The University's records indicate that approximately 365, 76, and 371 recipients of student financial assistance withdrew during the fiscal year ended June 30, 2010 at the University of Missouri – St. Louis, Missouri University of Science and Technology, and the University of Missouri (Columbia campus), respectively.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

The conditions found related to the reporting of information within the Student Status Confirmation Reports utilizing a date that differed from the date of withdrawal impacted Student Status Confirmation Reports for the University of Missouri – Kansas City and Missouri University of Science and Technology, and occurred for five of 34 students selected for test work for the aforementioned campuses. The University of Missouri – Kansas City and Missouri University of Science and Technology records indicate that approximately 277 and 76 recipients of student financial assistance, respectively, withdrew during the fiscal year ended June 30, 2010.

Cause and Effect – The University did not have an effective system of internal control in place to ensure that that student status changes were reported in accordance with 34 CFR Part 682.610. As a result, student status changes were either reported after more than 60 days or not reported for certain students at the University of Missouri – St. Louis, Missouri University of Science and Technology, and the University of Missouri (Columbia campus), respectively.

Additionally, the University did not have an effective system of internal control in place to ensure that student status changes related to withdrawn students were reported as of the correct date. As a result, information was reported within Student Status Confirmation Reports utilizing a date that differed from the date of withdrawal by certain students at the University of Missouri – Kansas City and Missouri University of Science and Technology.

Recommendations – We recommend the University strengthen its existing processes and controls relative to the Special Tests & Provisions – Student Status Changes compliance requirement to ensure compliance with 34 CFR Part 682.610.

Views of Responsible Officials and Corrective Actions – The University agrees it must strengthen its existing processes and controls relative to the Special Tests & Provisions – Student Status Changes compliance requirement to ensure compliance with 34 CFR Part 682.610.

The Campus Registrars and Financial Aid Offices have implemented processes to accurately report student withdrawal dates and student status changes. These changes were implemented in March 2010.

The University of Missouri – Kansas City and Missouri University of Science and Technology have modified their process to use the date a student initiates the withdrawal rather than the date the withdrawal was processed in the system. These changes were implemented in March 2010.

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

FINDING 2010-06

Federal Agencies – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster (including ARRA expenditures)

Federal Program Title – Research and Development Cluster

CFDA Nos. – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

Grant Identification Number(s) – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

Grant Award Periods – Various

Compliance Requirements – Cash Management

Criteria – The OMB Circular A-133 Compliance Supplement requires that when entities are funded on a reimbursement basis, program costs must be paid for by the entity before reimbursement is requested from the federal government.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. The University performs draw downs based upon expenditures recorded within the general ledger, as of the general ledger date. Typically, the general ledger date represents the date an expenditure is paid. However, if a manual hold is placed on an expenditure, or if a high volume of vouchers are being processed, the general ledger date may precede the actual payment date.

Additionally, while performing test work related to the cash management compliance requirement, it was identified that one of 40 expenditures selected for test work was drawn down 12 days prior to being paid (\$40,000 direct expenditure plus \$20,600 of related indirect costs incurred on U.S. Department of Health and Human Services, CFDA No. 93.701 – ARRA, Grant Identification No. 1RC2HL103465-01). Management indicated that this error occurred due to the processing of a high volume of vouchers, which resulted in a delay in checks being prepared for some expenditures.

Questioned Costs – Most likely questioned costs related to interest earned on expenditures drawn down prior to being paid are estimated to be \$52, consisting of \$41 of direct expenditures and \$11 of indirect expenditures. Most likely questioned costs relate to the following Federal agencies:

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Federal Agency	Amount, which includes ARRA and non-ARRA expenditures
U.S. Department of Agriculture	\$ 8
National Science Foundation	24
U.S. Department of Energy	2
U.S. Department of Education	1
U.S. Department of Health and Human Services	17
	\$ 52

Most likely questioned costs were calculated by the University via the performance of a system query to identify all expenditures with a payment date preceding the draw down date, and then by applying the 4-week U.S. Department of Treasury interest rate to identified expenditures.

Context – The University’s records indicate that the conditions found related to expenditures being drawn down prior to being paid impacted \$2,778,711 of expenditures, which were paid between 1 and 240 days after being drawn down. Of this amount, \$367,618 of expenditures were paid 15 or more days after being incurred.

Cause and Effect – The University did not have an effective system of internal control in place to ensure that all expenditures were paid as of the date such expenditures were drawn down. Since draw downs are based upon the general ledger date as opposed to the payment date, there is a risk that items could be drawn down prior to being paid when a delay in processing expenditures occurs due to a manual hold placed on the expenditure or due to the high volume of expenditures being processed.

Recommendation – We recommend the University strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the cash management compliance requirement.

Views of Responsible Officials and Corrective Actions – The University agrees it must strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the cash management compliance requirement.

The University updated the automated billing process in PeopleSoft in August 2010 to only create an invoice after the expenditure has been paid rather than at the time the expenditure is entered into the system.

FINDING 2010-07

Federal Agencies – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster (including ARRA expenditures)

Federal Program Title – Research and Development Cluster

CFDA Nos. – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

Grant Identification Number(s) – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

Grant Award Periods – Various

Compliance Requirement – Procurement and Suspension and Debarment

Criteria – 2 CFR Part 180 states that non-Federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. Covered transactions include those procurement contracts and subcontracts that are expected to equal or exceed \$25,000 or meet certain other specified criteria, as defined within 2 CFR Part 180. Specifically, when entering into a covered transaction, the University must verify that the other party is not excluded or disqualified by (a) checking the Excluded Party List System (EPLS), (b) collecting a certification from the other party, if allowed by the Federal agency responsible for the transaction, or (c) by adding a clause or condition to the covered transaction with that person or entity.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires procurement records and files for purchases in excess of \$25,000 to include the following at a minimum: (a) basis for contractor selection, (b) justification for lack of competition when competitive bids or offers are not obtained, and (c) basis for award cost or price that all procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition.

Conditions Found – The University did not have an effective system of internal control in place to ensure compliance with the procurement and suspension and debarment compliance requirement, specifically as it relates to transactions initially recorded as part of a department identification number that was not flagged as Federal. While performing test work related to the University's compliance with the procurement and suspension and debarment compliance requirement, it was identified that one of 65 transactions selected for test work was not substantiated with documentation evidencing the University's verification that the other parties were not suspended or debarred, as required by 2 CFR Part 180.

Additionally, while performing test work related to the University's compliance with the procurement and suspension and debarment compliance requirement, it was identified that one of 65 transactions selected for test work was not substantiated by justification for lack of competition when competitive bids or offers were not obtained (i.e., sole source documentation), as required by OMB Circular A-110.

UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Questioned Costs – There are no questioned costs related to the transaction selected for test work that was not substantiated with documentation evidencing the University’s verification that the other parties were not suspended or debarred because the other party was not suspended or debarred, as identified by checking the EPLS subsequent to the sample being selected for test work. Expenditures associated with this matter were \$194,267 (U.S. Department of Agriculture, Payments to Agricultural Experiment Stations Under the Hatch Act, CFDA No. 10.203 within the Research and Development Cluster), which represent all expenditures incurred with the other party.

Known questioned costs related to the transaction not substantiated by appropriate sole source documentation are \$30,000 (U.S. Department of Agriculture, Grant Identification No. 58-6227-5-0029, CFDA No. 10.001). Most likely questioned costs are not determinable.

Context – Total construction expenditures of the Research and Development Cluster are estimated to be approximately \$2,045,781 for the year ended June 30, 2010.

Total expenditures of the Research and Development Cluster are \$184,365,475 for the year ended June 30, 2010.

Cause and Effect – The University’s mechanism for complying with the procurement and suspension and debarment compliance requirement for covered transactions varies by type of transaction, and occurs by checking the EPLS, by collecting a certification from the other party, or by including a condition within the purchase order authorizing the covered transaction. The trigger for performance of such processes occurs when expenditures are incurred as part of a departmental identification number that is flagged as Federal. The transaction for which there was no documentation evidencing the University’s verification that the other party was not suspended or debarred related to construction expenditures incurred in a program managed outside of the University’s Office of Sponsored Programs, which were initially recorded as part of a department identification number that was not flagged as Federal. As such, the performance of the normal process to validate the other party was not suspended or debarred did not occur.

While the University’s procurement policies require unique items or services that meet established dollar thresholds to be supported by approved sole source documentation, the transaction not substantiated by approved sole source documentation occurred due to a training issue. As such, the University did not have documentation of its justification for lack of competition when competitive bids or offers were not obtained.

Recommendation – We recommend the University strengthen its existing processes and controls relative to ensuring covered transactions are not entered into with suspended or debarred parties in accordance with 2 CFR Part 180, and to ensure that justification for lack of competition when competitive bids or offers are not obtained is documented in accordance with OMB Circular A-110.

Views of Responsible Officials and Corrective Actions – The University agrees that it must strengthen its existing processes and controls relative to ensuring covered transactions are not entered into with suspended or debarred parties in accordance with 2 CFR Part 180 and ensure that justification for lack of competition when competitive bids or offers are not obtained is documented in accordance with OMB Circular A-110.

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

In what is believed to be an isolated instance, a federally funded construction project was not identified appropriately as a federal project in the financial system. Due to the timing of discovering this error there were transactions executed on the project through September 2009 without checking EPLS. The University continues to include Procurement Suspension and Debarment in its training curriculum.

The University has policies and procedures that require documentation of sole source justification be completed when competitive bids or offers are not obtained. This appears to be an isolated instance of non-compliance. The University will ensure this requirement is included in procurement and sponsored programs training.

Contact Name: Ryan Rapp, Associate Controller
Contact Telephone Number: (573) 882-6435

FINDING 2010-08

Federal Agency – U.S. Department of Education passed through the State of Missouri Department of Higher Education

Federal Program Title – State Fiscal Stabilization Fund (ARRA)

CFDA Nos. – 84.394 and 84.397

Grant Identification Numbers – UNIV OF MO-2082 and UNIV OF MO-2018

Compliance Requirement – Special Tests & Provisions – R1 – Separate Accountability for ARRA Funding

Criteria – 2 CFR Part 176.210 requires recipients of ARRA funding to maintain records that identify adequately the source and application of Recovery Act funds.

Conditions Found – The University did not have an effective system of internal control to ensure that state fiscal stabilization funds were separately tracked. The State of Missouri awarded state fiscal stabilization funds to the University through House Bill No. 3 as an appropriation. The University established a separate revenue general ledger program code, but did not establish a separate expenditure general ledger program code. As a result, no mechanism to provide for the separate accountability of state fiscal stabilization fund expenditures existed. Prior to the receipt of state fiscal stabilization funds, the University documented a policy whereby state fiscal stabilization funds would be used to pay for the first compensation and student aid charges normally funded by its general operations. However, the specific state fiscal stabilization fund expenditures were commingled within the general ledger as part of the University's general operation expenditures. Therefore, the separate accountability for ARRA funding required by 2 CFR Part 176.210 was not completely attained. In connection with the audit process, the University was able to perform an after-the-fact query of eligible compensation and student aid expenditures incurred.

Questioned Costs – There are no questioned costs.

Context – The condition found related to the tracking of all state fiscal stabilization fund expenditures, which represented \$48,279,545 of dollars associated with the state fiscal stabilization funds education program (CFDA No. 83.394) and \$23,549,853 of dollars associated with the state fiscal stabilization funds government services program (CFDA No. 83.397).

**UNIVERSITY OF MISSOURI SYSTEM
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2010

Cause and Effect – The University did not have an effective system of internal control in place to ensure that state fiscal stabilization fund expenditures were separately tracked, which resulted in such expenditures being commingled with all compensation and student aid expenditures within the University’s general operations fund.

Recommendations – We recommend the University strengthen its controls relative to ensuring state fiscal stabilization funds are separately tracked and accounted for, as required by 2 CFR Part 176.210.

Views of Responsible Officials and Corrective Actions – The University agrees that it must strengthen its existing processes and controls relative to separate tracking and accounting for state fiscal stabilization funds in accordance with 2 CFR Part 176.210.

The University will establish a process for Fiscal Year 2011 to separately identify and track State Fiscal Stabilization Funds ARRA funds from other general operating expenditures.
