**Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards***

The Board of Curators  
University of Missouri System:

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri, as of and for the year ended June 30, 2011, which collectively comprise the University of Missouri System's basic financial statements, and have issued our report thereon dated October 11, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

For purposes of this report, our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters did not include Capital Region Medical Center that operates as an affiliate of the Medical Alliance, a discretely presented component unit of the University of Missouri System. We have issued a separate report, dated October 11, 2011, on our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for this entity. The findings, if any, included in that report are not included herein.

**Internal Control over Financial Reporting**

In planning and performing our audit, we considered the University of Missouri System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Missouri System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Missouri System's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University of Missouri System's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Curators, management, others within the University of Missouri System, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance With Requirements  
That Could Have a Direct and Material Effect on Each Major Program and on  
Internal Control Over Compliance in Accordance With OMB Circular A-133**

The Board of Curators  
University of Missouri System:

**Compliance**

We have audited the University of Missouri System's, a component unit of the State of Missouri, compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (*OMB Circular A-133 Compliance Supplement*) that could have a direct and material effect on each of the University of Missouri System's major federal programs for the year ended June 30, 2011, except the requirements discussed in the second paragraph of this report. The University of Missouri System's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University of Missouri System's management. Our responsibility is to express an opinion on the University of Missouri System's compliance based on our audit.

We did not audit the University of Missouri System's compliance with the requirements governing maintaining contact with borrowers, billing and collection procedures, and verifying and reporting all deferments, postponements, cancellations, and defaulted loans in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement. Those requirements govern functions performed by Educational Computer Systems, Inc. Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. Educational Computer Systems, Inc.'s compliance with the requirements governing the functions that it performs for the University of Missouri System for the year ended June 30, 2011 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' examination of Educational Computer Systems, Inc.'s compliance with such requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements described in the compliance supplement that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Missouri System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides

a reasonable basis for our opinion. Our audit does not provide a legal determination of the University of Missouri System's compliance with those requirements.

In our opinion, the University of Missouri System complied, in all material respects, with the compliance requirements referred to in the first paragraph above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Findings 2011-01, 2011-02, 2011-03, and 2011-04.

### **Internal Control Over Compliance**

Management of the University of Missouri System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University of Missouri System's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Entity's internal control over compliance.

Requirements governing maintaining contact with borrowers, billing and collection procedures, and verifying and reporting all deferments, postponements, cancellations, and defaulted loans in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement are performed by Educational Computer Systems, Inc. Internal control over compliance related to such functions for the year ended June 30, 2011 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' testing of Educational Computer Systems, Inc.'s internal control over compliance related to such functions.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as Findings 2011-02, 2011-03, and 2011-04. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri as of and for the year ended June 30, 2011, and have issued our report thereon dated October 11, 2011. Our audit was performed for the purpose of forming opinions on the financial statement that collectively comprise the University of Missouri System's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The University of Missouri System's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University of Missouri System's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Curators, management, others within the University of Missouri System, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Notes to the Schedule of Expenditures of Federal Awards

Year ended June 30, 2011

---

**1. Summary of Significant Accounting Policies and Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of the University of Missouri System (the University) under programs funded by the federal government for the year ended June 30, 2011. The Schedule has been prepared on the accrual basis of accounting.

For purposes of the Schedule, federal awards include all grants and contracts entered into directly between the University and agencies and departments of the federal government, as well as federal funds passed through to the University by other recipients. The awards are classified as a major program in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The Schedule includes only federal funds and other federal assistance received by the University and denotes the federal agency that is the source of those funds.

**2. Research and Development Cluster**

The University's Research and Development Cluster major federal program includes those awards that are for basic and applied research and development activities and for research training. OMB Circular A-133 defines research and development as follows: research is a systemic study directed toward fuller scientific knowledge or understanding of the subject studied; development is the systemic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

**3. Indirect Costs**

Expenditures listed in the Schedule consist of direct and indirect costs. Direct costs are those that can be easily identified with an individual federally sponsored project. The salary of a principal investigator of a sponsored research project and the materials consumed by the project are examples of direct costs.

The University and federal agencies use an indirect cost rate to charge indirect costs to individual federally sponsored projects. Indirect costs are the costs of services and resources that benefit both sponsored and nonsponsored projects and activities. The rate is the result of a number of complex cost allocation procedures that the University uses to allocate its indirect costs to both sponsored and nonsponsored activities.

The University recovers indirect costs under the federal financial assistance programs based on predetermined rates up to 51.5%, which were negotiated between the University and the U.S. Department of Health and Human Services for the year ended June 30, 2011.

**UNIVERSITY OF MISSOURI SYSTEM  
(A Component Unit of the State of Missouri)**

Notes to the Schedule of Expenditures of Federal Awards, Continued

Year ended June 30, 2011

**4. Grants to Subrecipients**

Of the federal expenditures presented in the Schedule, the University provided \$24,856,742 in expenditures to subrecipients. The funds were primarily provided to other institutions of higher education, and related to various grant programs across the following federal agencies:

<u>Federal Agency</u>	<u>Amount</u>
U.S. Department of Agriculture	\$ 1,456,784
U.S. Department of Commerce	982,804
U.S. Department of Defense	2,814,883
U.S. Department of the Interior	8,516
U.S. Department of Justice	150,308
U.S. Department of Labor	52,987
U.S. Department of Transportation	1,203,909
Federal Trade Commission	347,805
National Aeronautics & Space Administration	357,390
National Science Foundation	3,094,084
Small Business Administration	660,049
Environmental Protection Agency	54,393
U.S. Department of Energy	1,846,220
U.S. Department of Education	2,033,508
U.S. Department of Health and Human Services	9,686,695
Corporation for National and Community Service	42,228
U.S. Department of Homeland Security	15,001
Agency for Internal Development	49,178
	<u>\$ 24,856,742</u>

**5. Loan Programs**

The University also participates in various loan programs. Such loan programs are considered a component of the student financial aid cluster. The following schedule represents loans advanced (which are included on the face of the schedule of expenditures of federal awards), and outstanding by the University as of and for the year ended June 30, 2011:

(h) Dollar threshold used to distinguish between Type A and Type B programs: **\$3,000,000**

(i) Auditee qualified as a low-risk auditee under section .530 of OMB Circular A-133: **No**

**(2) Findings Relating to the Basic Financial Statements Reported in Accordance with *Government Auditing Standards*: None Reported**

**(3) Findings and Questioned Costs relating to Federal Awards:**

---

**FINDING 2011-01**

---

**Federal Agency** – U.S. Department of Education

**Federal Program Title** – Student Financial Assistance Cluster

**CFDA No.** – 84.063 (Federal Pell Grant Program)

**Grant Identification Numbers** – As listed in the Schedule of Expenditures of Federal Awards for CFDA No. 84.063

**Grant Award Period** – July 1, 2010 through June 30, 2011

**Compliance Requirement** – Reporting

**Criteria** – The OMB Circular A-133 Compliance Supplement and OMB 1845-0039 require that institutions report Pell payment data within 30 calendar days after the school makes a payment, or becomes aware of the need to make an adjustment to previously reported student payment data or expected student payment data.

**Conditions Found** – While performing procedures related to the reporting of Pell payment data for 103 total disbursements, it was identified that Pell payment data for two of twelve Fall disbursements and two of twelve Spring disbursements selected for test work for one campus were reported outside of the 30 calendar day requirement established by the OMB Circular A-133 Compliance Supplement and OMB 1845-0039. Management indicated this was a result of a transmission error when uploading disbursement records via the U.S. Department of Education's Common Origination and Disbursement System. University management identified

**UNIVERSITY OF MISSOURI SYSTEM**  
**(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2011

---

that a transmission error occurred and attempted to resubmit the information via the U.S. Department of Education's Common Origination and Disbursement System, however, management later identified that some records were not being accepted. Further, management noted the approved amounts were being reduced to utilize the 2011 academic year Estimated Family Contribution (EFC) instead of the intended 2010 academic year, because the University's student administration system was not recognizing that University management wanted to utilize the Institutional Student Information Record (ISIR) information most advantageous to the student. Upon remediation by University management between March 7, 2011 and March 28, 2011, such Pell payment data was subsequently remitted, outside of the 30 calendar day requirement.

**Questioned Costs** – There are no questioned costs.

**Context** – The University's records indicate the error identified impacted the reporting of Pell Payment Data for 443 students made between March 7, 2011 and March 28, 2011 at the University of Missouri – Columbia. During fiscal year 2011, 5,712 students received Pell disbursements at the University of Missouri – Columbia.

**Cause and Effect** – PeopleSoft, the University's enterprise student administration system was not properly coded to recognize that University management wanted to utilize the ISIR information most advantageous to the student to award Pell grants. As a result, Pell payment data for 443 Pell disbursements was reported outside of the required 30 calendar day requirement.

**Views of Responsible Officials and Corrective Actions** – The Pell payment late reporting was caused by a transmission error. The University of Missouri - Columbia has consulted with the technical staff at the Department of Education office in Kansas City and developed a plan to ensure compliance with the 30 calendar day reporting requirement. Additionally, the University has elected to utilize the students' ISIR information for the related academic year when awarding Pell.

**Contact Name: Ryan Rapp, Associate Controller**

**Contact Telephone Number: (573) 882-6435**

---

**FINDING 2011-02**

---

**Federal Agency** – U.S. Department of Education

**Federal Program Title** – State Fiscal Stabilization Fund – Investing in Innovation – ARRA

**CFDA No.** – 84.396

**Grant Identification Number** – U396B100038

**Grant Award Period** – October 1, 2010 through September 30, 2015

**Compliance Requirement** – Subrecipient Monitoring and Special Tests and Provisions – R3 – Subrecipient Monitoring

**Criteria** – As set forth in United States Code (USC) 7502 and OMB Circular A-133, paragraph .400, the University is required to perform subrecipient monitoring. The University is responsible for ensuring the federal award information and compliance requirements are identified and provided to subrecipients and also for

**UNIVERSITY OF MISSOURI SYSTEM**  
**(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2011

---

monitoring subrecipient activities to ensure compliance with applicable laws and regulations. Additionally, as set forth in 2 CFR 176.210(c), recipients of Recovery Act funding agree to separately identify each subrecipient, and document at the time of the subaward and at the time of disbursement of funds, the Federal award number, CFDA number, and amount of Recovery Act funds. Additionally, recipients of Recovery Act funding agree to require their subrecipients to include on their Schedule of Expenditures of Federal Awards information to specifically identify Recovery Act funding.

**Conditions Found** – The University did not have an effective system of internal control in place to ensure compliance with the subrecipient monitoring compliance requirement or the special tests and provisions – R3 – subrecipient monitoring, specifically as it relates to ensuring the federal award information and compliance requirements are identified and provided to subrecipients. One of the University’s primary mechanisms for providing the federal award information to subrecipients for the State Fiscal Stabilization Fund – Investing in Innovation grant occurs through a standardized contracting process, which the specific terms of the federal award are completed for each specific subrecipient. While performing test work, it was identified that 13 of 16 subrecipients selected were provided conflicting CFDA numbers. One of CFDA numbers provided was not correct for the federal award identified within the respective contract.

**Questioned Costs** – There are no questioned costs.

**Context** – The condition found impacts 13 of 16 subrecipients who were selected for test work who had a total of \$535,312 in State Fiscal Stabilization Fund – Investing in Innovation grant expenditures for the fiscal year ended June 30, 2011. Total expenditures for the year ended June 30, 2011 for all subrecipients were \$846,697.

**Cause and Effect** – The University did not have an effective system of internal control in place to ensure that all subrecipients were provided the correct CFDA number related to the federal award grant, which resulted in 13 subrecipients not having the correct CFDA number.

**Recommendations** – The University needs to establish an effective system of internal control to ensure compliance with the subrecipient monitoring compliance requirement and the special tests and provisions – R3 – subrecipient monitoring compliance requirement. The University should ensure that the correct CFDA number related to the federal award grant is provided to the subrecipient as required.

**Views of Responsible Officials and Corrective Actions** – The University agrees it must strengthen its existing process and controls relative to providing the correct CFDA number to the subrecipients to ensure compliance with the subrecipient monitoring compliance requirement and the special tests and provisions – R3 – subrecipient monitoring compliance requirement.

The University has policies and procedures in place that require CFDA numbers be provided to subrecipients through the contracting processes. The University will emphasize to the Offices of Sponsored Programs Administration the importance of ensuring the correct CFDA number is provided to the subrecipient.

**Contact Name: Ryan Rapp, Associate Controller**

**Contact Telephone Number: (573) 882-6435**

**UNIVERSITY OF MISSOURI SYSTEM**  
**(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2011

---

**FINDING 2011-03**

---

**Federal Agency** – U.S. Department of Health and Human Services

**Federal Program Title** – Substance Abuse and Mental Health Services

**CFDA No.** – 93.243

**Grant Identification Number(s)** – As listed in the Schedule of Expenditures of Federal Awards for the Substance Abuse and Mental Health Services

**Grant Award Periods** – Various

**Compliance Requirement** – Allowable Costs/Cost Principles

**Criteria** – The Federally approved benefit rate in the letter dated April 5, 2011 from the United States Department of Health and Human Services to the University, documented that benefits cannot exceed 14.20% for medical employees and 16.60% for all other employees as a percentage of salaries and wages.

**Conditions Found** – The University did not have an effective system of internal control in place to ensure compliance with the allowable costs/cost principles compliance requirement. The University charges employee benefits initially based upon the University Budget Office rate, which was 19.88% and 22.72%, and is then adjusted to the Federally approved rate each pay cycle. The fiscal year 2011 Federally approved benefits rate was 14.20% for medical employees and 16.60% for all other employees.

While performing test work related to the allowable costs/cost principles compliance requirement as related to benefit expenditures, it was identified that two of five projects selected for test work had benefit expenditures that exceeded the Federally approved rate by a total of \$23,115, plus \$6,010 of related indirect costs incurred. Management indicated that this error occurred because the projects were not initially coded properly and as such the University Budget Office rate was not adjusted. The rate was corrected going forward, but no adjustment was made back to the beginning of the fiscal year.

**Questioned Costs** – Known questioned costs related to benefit expenditures charged in excess of the Federally approved rates are \$23,115, plus \$6,010 of related indirect costs. Most likely questioned costs related to benefit expenditures charged in excess of the Federally approved rates are \$26,449, plus \$6,684 of related indirect costs.

Most likely questioned costs were calculated by the University via the performance of a system query to identify all benefit expenditures charged at a higher rate than the approved Federal benefit rate.

**Context** – The University's records indicate that the conditions found related to the benefit rate not being adjusted to the Federally approved rate for six separate projects, which resulted in unallowable costs of \$26,449, plus \$6,684 of related indirect costs.

**Cause and Effect** – The University did not have an effective system of internal control in place to ensure that all benefits charged to the grant did not exceed the Federally approved benefit rate of 14.20% for medical employees and 16.60% for all other employees.

**Recommendation** – We recommend the University strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the allowable costs/cost principles compliance requirement.

**UNIVERSITY OF MISSOURI SYSTEM  
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2011

---

**Views of Responsible Officials and Corrective Actions** – The University agrees it must strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the allowable costs/cost principles compliance requirement.

The University modified PeopleSoft in February 2011 to automate this component of the award set-up process. This modification will fully mitigate the risk of noncompliance.

**Contact Name: Ryan Rapp, Associate Controller**  
**Contact Telephone Number: (573) 882-6435**

---

**FINDING 2011-04**

---

**Federal Agency** – U.S. Department of Health and Human Services

**Federal Program Title** – Substance Abuse and Mental Health Services

**CFDA No.** – 93.243

**Grant Identification Number(s)** – As listed in the Schedule of Expenditures of Federal Awards for the Substance Abuse and Mental Health Services

**Grant Award Periods** – Various

**Compliance Requirement** – Cash Management

**Criteria** – The OMB Circular A-133 Compliance Supplement requires that when entities are funded on a reimbursement basis, program costs must be paid for by the entity before reimbursement is requested from the federal government.

**Conditions Found** – The University did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. The University requests reimbursement from pass through entities based upon expenditures recorded within the general ledger on a monthly basis. Typically, the general ledger date represents the date an expenditure is paid. However, if a department of the University charges the grant prior to performing the services, the general ledger date may precede the actual payment date.

While performing test work related to the cash management compliance requirement, it was identified that one of 25 expenditures, totaling \$17,025 selected for test work was obligated to a University department and then requested reimbursement 92 days prior to the services being rendered. Additionally, indirect costs were also requested in the amount of \$4,427. Management indicated that this error occurred due to the department charging the grant at the date of obligation instead of the date the expenditure was incurred.

**Questioned Costs** – Known questioned costs related to the interest earned on expenditures included in the request for reimbursement prior to being paid are estimated to be \$9, consisting of \$7 of direct expenditures and \$2 of indirect expenditures. Most likely questioned costs are unknown.

**UNIVERSITY OF MISSOURI SYSTEM  
(A Component Unit of the State of Missouri)**

Schedule of Findings and Questioned Costs, Continued

Year ended June 30, 2011

---

**Context** – The University’s records indicate that the condition found related to the one expenditure being included in the request for reimbursement prior to being paid impacted \$17,025 of expenditures and \$4,427 in indirect costs, which were incurred 92 days after the request for reimbursement was submitted.

**Cause and Effect** – The University did not have an effective system of internal control in place to ensure that all expenditures were paid as of the date such expenditures were requested for reimbursement. Since reimbursement requests are based upon the general ledger date as opposed to the payment date, there is a risk that items could be requested prior to being paid when a department charges a grant prior to the department actually incurring the expenditure.

**Recommendation** – We recommend the University strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the cash management compliance requirement.

**Views of Responsible Officials and Corrective Actions** – The University agrees it must strengthen its existing processes and controls relative to ensuring federal expenditures are in compliance with the cash management compliance requirement.

The University will conduct training to educate Grants and Contracts staff on the difference between obligating funds and payment of funds.
