IACUC Review Checklist (Published Version)

[Home](#) / [System administration](#) / [Form types](#) / [IACUC Review Checklist](#) / [IACUC Review Checklist \(Published Version\)](#)
/ [Print preview](#)

1. All Protocols

A. Has a satisfactory review of scientific merit been performed?

- Yes
- No

B. Are the training and experience of the individuals performing the procedures satisfactory?

- Yes
- No

C. Is the overview section completed in layman's terms?

- Yes
- No

D. Is the rationale/justification/alternative for using the specified vertebrate animals complete?

- Yes
- No

E. Is there adequate justification for the number of animals requested?

- Yes
- No

F. Is the documentation of unnecessary duplication and/or pain and distress complete?

- Yes
- No

G. Are the experimental procedures for the animal clear and precise?

- Yes
- No

H. Are experimental endpoints and duration of experiments clear?

- Yes
- No

I. Are the methods of euthanasia appropriate?

- Yes
- No

J. Is the pain category appropriate for the research being done?

- Yes
- No

K. If alternative housing and husbandry methods are proposed, are they acceptable and justified?

- Yes
- No

2. As Applicable

A. If hazardous material use is proposed, are appropriate measures described for handling?

- Yes
- No
- N/A

B. If multiple survival surgery is proposed, is the scientific justification adequate?

- Yes
- No
- N/A

C. If pain relief would be withheld, is the scientific justification adequate?

- Yes
- No
- N/A

D. If animals may become seriously ill or debilitated, are criteria for interventional euthanasia defined?

- Yes
- No
- N/A

E. Do you anticipate complications to the procedures not considered by the Investigator?

- Yes
- No
- N/A

3. Veterinary Review Summary

A. Are the proposed anesthesia and analgesia appropriate?

- Yes
- No
- N/A

B. Are post-procedural care and observation adequate?

- Yes
- No
- N/A

C. Are there refinements to the procedures which you would like the Investigator to consider?

- Yes
- No
- N/A

D. Are the methods of euthanasia appropriate?

- Yes
- No
- N/A
